

Communion Assistant Instructions

Communion is usually served at stations. At one station there will be Pastor, one assistant, and one acolyte while the other stations will have two assistants and one acolyte. After the congregants from the outside pews have made their way through the line, move toward the center so that the congregants from the center pews can easily move in a circle from the pews and back to their seats.

Pastor Tom will give further instructions in the future as they arise.

Thank you for your service to Good Shepherd!
